STONE

NATURAL

# STONE

COLLECTION / 2026

Basalt shaped for modern architecture.

TÜRKİYE · WORLDWIDE

# Stone with presence. Precision with purpose.

We connect the character of Turkish natural stone with the clarity modern architecture demands.

## SELECT

Distinctive material, chosen for tone, structure and architectural character.

## SHAPE

Standard formats and project-specific production for coherent detailing.

## DELIVER

Export-minded coordination from quotation and production to worldwide logistics.

## ORIGIN

# Born from geology. Prepared for design.

Every block carries natural variation. Our role is to turn that individuality into material architects can specify with confidence — from slabs and tiles to demanding custom profiles.

# A controlled palette, rich in natural depth.

**DARK BASALT**

refined architectural surface

**LAVA BASALT**

refined architectural surface

**BLACK BASALT**

refined architectural surface

**CLASSIC BASALT**

refined architectural surface

**BRUSHED BASALT**

low-sheen tactile finish

**BRONZE BASALT**

warm mineral movement

Natural stone varies by block and production lot. Samples should be approved for final specification.

Light reveals the finish.  
Touch completes it.

**POLISHED**

Reflective depth and tonal intensity.

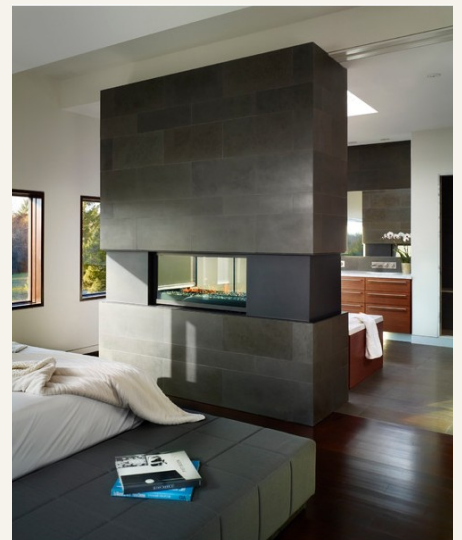

**BRUSHED**

**HONED**

Soft texture, understated sheen.

# Quiet authority for considered spaces.

## Floors • Walls • Fireplaces • Feature Surfaces

Basalt brings visual calm to residential, hospitality and commercial interiors — durable enough for daily life, refined enough to define it.

SCULPTURAL STONE

# Beyond surfaces.

Custom stone elements transform material into experience — from carved basins and baths to architectural details shaped around the project.

---

CUSTOM DIMENSIONS / PROJECT-SPECIFIC PRODUCTION

Designed to weather.  
Made to endure visually.

PAVERS • KERBS • CLADDING • LANDSCAPE ELEMENTS

# Small elements. Decisive details.

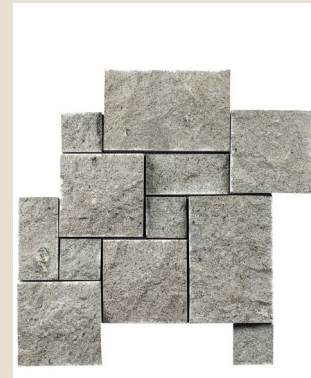

**KERBSTONE**

**CUBE STONE**

**SPLITFACE PANEL**

**MINI SET**

**CHANNEL / PROFILE**

**CUSTOM PROFILE**

Available in project-specific sizes, finishes and edge treatments subject to technical review.

TRAVERTINE

A lighter expression  
of natural stone.

**LIGHT TRAVERTINE**

Warm, luminous and quietly tactile.

**SILVER TRAVERTINE**

Layered movement with a cooler architectural tone.

## PROJECT SUPPORT

# A clear path from selection to delivery.

- |    |                |                                                                       |
|----|----------------|-----------------------------------------------------------------------|
| 01 | <b>DEFINE</b>  | Share drawings, dimensions, quantities and required finish.           |
| 02 | <b>ALIGN</b>   | Confirm material direction, production approach and commercial terms. |
| 03 | <b>PRODUCE</b> | Coordinate project-based manufacturing and quality control.           |
| 04 | <b>DELIVER</b> | Prepare export documentation and worldwide logistics coordination.    |

# Make the material part of the idea.

---

Tell us what you are building. We will help shape the right stone solution around it.
